Saratoga, CA 95070

Dear Stefan:

Thank you very much for helping Vicky and I weave through the crazy real estate market and land the house of our dreams. Your expertise and professionalism hands down got us our house.

From the very beginning, you were patient, flexible, took the time to fully understand what was important to us, and guide us on what to expect at every step. You were extremely knowledgeable for any questions we had, ones we hadn't thought of, as well as, what we should be aware of during each phase. Most importantly, your attention to detail and being on top of everything made the process go much smoother than we could have ever expected.

Your name will always be at the top of our list for friends, family and co-workers who are ever in the market for an agent.

Thanks again for providing an excellent experience and service.

Best Regards,

Bill
